Belle Glade Rams Win From Pahokee

The Belle Glade Rams were forced to extend themselves to the utmost in order to eke out a 10-7 victory over a battling, underdog Pahokee Blue Devil team in the annual Glades Thanksgiving Eve football classic played on Lair Field Wednesday night.

With the score tied, 7-7, in the final moments of the game Belle Glade set up the winning tally by intercepting a Pahokee pass and Clarence Throop became the hero of the evening for the Bell Glade fans when he booted a three-point field goal from four yards out. The Rams were the first to score in the initial period when their alert defense blocked a Pahokee punt and Johnny Bass passed from one-yard out to Roger Walker in the end zone.

The Blue Devils' stout defenses held the Rams scoreless through the second and third quarters, then late in the fourth Pahokee's Halfback John Davis shoved the ball across for a TD only to have the score nullified because of the crowd of fans standing in the end zone. On the next play QB Denny Padgett passed eight yards to Curtis Russom for the TD that was good.

The Blue Devils' game was much improved over their performance of the previous week when they were smothered by New Smyrna Beach, 27-0, but still not good enough for the win necessary for gaining possession of the Bill (continued on page 8)

Sugar Potential Great In Glades

The Cuban political situation has centered attention on the sugar producing potential of the Glades area of Palm Beach and Hendry counties.

Vegetable growers are interested since cane offers a more stable return on their investment than winter vegetables. Today many vegetable growers are considering cane growing as a more promising crop.

For years vegetables were considered the big money crop, but it has proved a costly gamble for many growers and today it appears that the growing of cane is a safer and more profitable proposition.

The United States Sugar Corporation is largely responsible. Until this organization entered the field and under the leadership of C. S. Mott spent millions of dollars on research to develop a cane variety suitable for the Glades area, cane growing for the independent farmer was a hazardous project.

With the development of sturdy, disease resistant, high yield cane the situation has changed and today cane growing offers greater and safer returns on the investment than any other Glades crop. As a result indications point to the rapid development of the area. The Osceola Farms Company recently leased 4,000 acres of desirable sugar cane land and is preparing for extensive operations. They plan the establishment of a sugar factory with a capacity of 2,200 tons a day. Operations are scheduled to (continued on page 8)

Early Completion P. B. Co. Health Bldg.

An early completion of the new county health building is being sought by the county commission which this week threatened to call in a bonding company to finish the project if the contractor continued to hold up the job.

The board noted that the contractor had already been given an extension of time on the job due to a steel strike and that he had dragged his feet months beyond the extension.

The board Friday received an amended contract for the job and instructed County Engineer Steve Middleton to get a definite completion date.

If these measures fail, the board said it will call on the contractors bonding company to finish the project.

Following their decision members sent her a telegram: "Congratulations! We have honored you by naming the new WSCS circle of the First Methodist Church, the Vena Mae Schroder Circle, signed, Vena Mae Schroder Circle members."

At the business session, with Mrs. Bill Casto, chairman, presiding, the group voted to prepare a Christmas basket for a needy family. Mrs. Myers Fountain to be in charge. Mrs. Hurt had on display the Christmas cards being sold as a fund-raising project. It was announced (continued on page 8)

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The county commission, in a tie vote, turned down an application from Palm Beach Aviation to move to Palm Beach International Airport from its present location at Lantana.

The proposed transfer has been in and out of commission meetings for several weeks.

Commissioners Lake Lytal and Ben Sundry voted to let the firm move, and Chairman Paul Rardin joined with Commissioner Roy Michael, Jr., to cast the dissenting votes. Foster was not present.

Lytal said he favored the proposal because it would mean good competition for Butler Aviation which now holds an exclusive contract as base operation. Michael contended that now was not the time to bring in additional competition for Butler, since the county stands to gain more from a single operator in the payment of rents and percentage of sales.

In other actions the board:

Opened bids for culverts, bridge timber, photostat binders, voting machine insurance, remodel immigration building at the airport, moving a detention building at the children's home and for resurfacing State Road 701 at Jupiter.

Decided to investigate the state railroad commission's decision on a proposed merger of the Atlantic Coastline and Seaboard Railroads and to let the commission's reaction be known at a hearing next Monday in Virginia.

Approved an appraisal of more than a half million dollars for right of way near Boynton Beach for improvement of U. S. Highway 1.

Voted to ask the State Turnpike Authority to add the name of Lake Worth to the list of interchange cities on Turnpike sign boards and also to add the name of Greenacres City to the list of towns that can be reached from the Lake Worth interchange.

Mr. & Mrs. J. B. Crosby Married 50 Years

Mr. and Mrs. J. B. Crosby, who were among the earliest settlers in the Pahokee-Canal Point area, celebrated their 50th wedding anniversary Sunday afternoon, Nov. 13, at the home of their son-in-law and daughter, Mr. and Mrs. Robert Lee Allen in Atlanta, Ga., where they are now living, according to word received here by friends.

For many years before the Glades was cleared and drained for farming operations Mr. and Mrs. Crosby operated a general store and postoffice on Bacon Point, serving the fishermen of Lake Okeechobee at a time when fishing was the major industry in this area. When Glades farming became widespread, Mr. Crosby grew winter vegetables for several years before his retirement. A few years ago he suffered a paralytic stroke that left him bedfast, but still in good spirits despite his disability.

For the past two years Mr. and Mrs. Crosby have been making their home with their daughter and family in Atlanta. They also have a son, Louis Crosby, seven grandchildren and several great grandchildren. Mrs. Crosby is the sister of Mrs. I. S. Guthrie of Pahokee and Mrs. R. L. Guthrie of Delray Beach.

T. T. Sherwood, Eastern representative told the commission the new flight will originate in New York, turn around at Palm Beach International Airport and return to New York. Flying time between the two cities is scheduled for 2 hours and thirty minutes.

Reuben Barfield, pastor of the First Missionary Baptist Church.

Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

\$3 = \$4 *fourteen months faster than before*

The Bonds you own are better than ever, too

The new $3\frac{3}{4}\%$ rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra $\frac{1}{2}\%$ from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

More advantages of U.S. Savings Bonds

You can save **automatically**. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

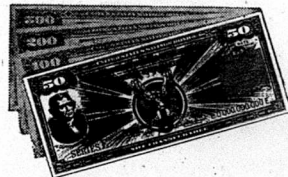

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally invested.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2063 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where your bank.

For the big things in your life, be ready with U. S. Savings Bonds

The two top contenders for the Suncoast Conference 1960 crown, Lake Worth and Seacrest, battled it out to a 6-6 tie at Lake Worth Wednesday night, and thus will share the championship honors. Both teams ended the season with 9-0-1 records, which is mighty good in anybody's league.

start next year.

A number of other concerns are planning to start operation in the Glades including experienced sugar men from Cuba.

The United States Sugar Corporation welcomes the newcomers and has offered to cooperate with them in providing data and information on their experience in the Glades as well as supplying cane seed proved successful from their years of research conducted at a cost of many millions of dollars.

The only thing that could hamper or retard the extensive development of the area would be a limitation on production and sale imposed by the Federal government. Once assured that they can invest in cane growing with no worry about having their operations curtailed by Federal restrictions Florida's sugar industry will grow and prosper.
